

# Peer Advisory Forum

voices shaping services

We are really proud to launch our Peer Advisory Forum. Women have been meeting each month with the Senior Management Team, Chief Executive and Board to help design services.

The Group started in January and has been going from strength to strength. Main aims:

- Feedback women's experiences of accessing and using services
- Design new services with Haven trustees
- Peer Support in refuge and community services
- Promote volunteering opportunities for women
- Contribute to wider consultation on strategy and policy which impact on the lives of women
